- * MAP Implant Institute: Palm Harbor, FL
- * Medical University of SC: Charleston, SC
- * Zimmer Certification for Puros Block Allograft: NY, NY
- * The Dawson Center for Advanced Dental Study: St. Petersburg, FL
- * The Mid-Atlantic Center for Advanced Dental Study, Chesapeake, VA

Here's what one patient has to say:

"Dr. Goldberg is very professional regarding what he feels is the best for his patients. He gives the options available and works with you in choosing what is right for you. The staff is friendly, attentive, helpful and knowledgeable. I was treated with absolute caring and compassion. The technology used and the cleanliness of the dental office is top of their class. Dr. Goldberg identified & explained the issues of my case and my options. He took his time working with me in identifying the proper replacement color match. Dr. Goldberg was very professional & empathetic towards my tooth replacement."

~ **Jennifer Welch**

Experience

- ◆ Dr. Goldberg has been practicing implant dentistry for 18 years. He is one of only 411 dentists in the world to hold the title of Diplomate of the American Board of Oral Implantology/Implant Dentistry. He is a master, fellow, or associate fellow of multiple implant organizations and consistently attends continuing education courses and seminars.
- ◆ Dr. Goldberg offers convenience and comprehensive treatment. He performs most procedures himself, right in his office. Rarely do you require referrals to other doctors.
- ◆ Due to the volume of implant procedures that Dr. Goldberg performs, he offers CT/Cone Beam scans right on site. This cutting-edge equipment allows patients that require scans to have them completed in a timely and convenient manner.

Compassion

- ◆ Dr. Goldberg and his staff have been treating patients for over 18 years. They understand the fear and intimidation of dental work. Everyone in the office ensures your comfort is our #1 priority. We offer soothing amenities including television, Pandora radio, nitrous oxide, and, for very nervous patients, a board certified anesthesiologist is on-staff to offer sleep options.

Quality

- ◆ Dr. Goldberg uses the highest quality products and offers unparalleled service. The marketplace for dental implants and associated products is enormous: the practice is diligent in the selection and sourcing of the most advanced performance materials and techniques.

Economics

- ◆ Dr. Goldberg is aware of the high cost of living and makes every effort to offer the most reasonable fee structures in the surrounding area. We have found that our fees for implant and related procedures are significantly lower than other offices.
- ◆ Our office discusses multiple options you may have, rather than a "one size fits all" approach. This relates to experience: Dr. Goldberg has been doing this for a very long time, and is very insightful.
- ◆ People often struggle over the financials; if this is one of your concerns, we will address it. We have multiple financing options to help you restore your dental health to the level you want and deserve.
